Experience

2022/06 - 2023/07

Training at Cap Alliance Morocco in Web Development

My role involved working with a team to develop websites that align with the clients' needs and preferences.

2024/04 - 2024/6

Project Personnel Management

- The Personnel Management Project was initiated under the direction of Mr. Mechrafi, General Director of the school. In this project, I led the development and implementation of the "Mission Orders" module.
- This module was designed to effectively manage the tasks assigned to each employee.

2022/06 - 2023/07

Training at Manifest AI in dropshipping

I collaborated with a team to identify successful products, build an online store, and initiate product marketing

Volunteering Contributions

it-wave Event Organizer

Solicode Center & Ntic Center | May 13 – May 17

- Collaborated with trainees from Solicode Center and Ntic Center to organize the it-wave event over five consecutive days.
- Contributed to a six-month planning process for the event, which involved extensive coordination and partnership efforts.
